

IS DONALD TRUMP'S PRESIDENCY GOING TO CAUSE WORLD WAR THREE?!

By Alexandru Iacob

Is Donald Trump's presidency going to ultimately cause World War Three? One of the most asked questions nowadays. You know, for a president, Mr. Trump is very active on his Twitter page. Also it can be good or bad for him. He can say something negative or bad about something and it will stay on the internet forever, or he can say something positive and it can forever stay on the internet. For example one of his tweets on August 2013 he said, "Be prepared, there is a small chance that our horrendous leadership could unknowingly lead us into World War III." Meaning that he was predicting a third world war almost 4 years before his presidency. And again Trump predicting another world war.

Another two tweets he has put out on the internet for us individuals to see, "Now that Obama's poll numbers are in tailspin – watch for *Sometimes your best investments are the ones you don't make* him to launch a strike in Libya or Iran. ~Donald Trump

He is desperate." and "AGAIN, TO OUR VERY FOOLISH LEADER, DO NOT ATTACK SYRIA - IF YOU DO MANY VERY BAD THINGS WILL

HAPPEN & FROM THAT FIGHT THE U.S. GETS NOTHING" both practically mean that if we keep attacking other countries we could end up in the third world war. He also more specifically told senators to stop focusing so much energy on the infamous terrorist group ISIS and focus more on not starting World War Three," The joint statement of former presidential candidates John McCain & Lindsey Graham is wrong - they are sadly weak on immigration. The two senators should focus their energies on ISIS, illegal immigration and border security instead of always looking to start World War III." To add

on, there are other things Trump did to rile up the people to start this. His very infamous immigration ban on

7 different primarily muslim countries. That got the people very angry at Trump, calling him a racist, which we all know he is known to be just a bit racist. Everyone quickly assumed that he hated muslims because he banned immigration from primarily muslim countries when barely anybody did logical research behind it.

Another thing that Trump did was a little quarrel with North Korea and their nuclear bombs in the making. "North Korea just stated that it is in the final stages of developing a nuclear weapon capable of reaching parts of the U.S. It won't happen!" He is saying that North Korea has nuclear weapons that could attack the U.S. and he won't let it happen causing tension. Just like WWI. So is he actually going to start WWII or not? Time will eventually tell.
